

LogiLink HD0049 matrix switcher AV matrix switcher 5 W

Model: HD0049

Manufacturer: LOGILINK

EAN: 4052792062472

Product Code: 1221968

R3,321

The LogiLink 4K HDMI matrix switch combines the advantages of a simple HDMI switch and a HDMI splitter. It routes one or two HDMI video signals from four selectable input signals to one or two selectable HDMI displays each. Control the unit remotely for maximum flexibility for all connected systems. All inputs are suitable for HD video sources such as video camera, HD DVD, receiver, set-top boxes, game consoles, etc. Thanks to Ultra HD (4K/60 Hz) experience media content in brilliantly sharp resolution. The integrated downscaler function supports the display of 4K content on Full HD displays, in addition, both 4K and Full HD displays can be operated simultaneously with support for HDCP 2.2, HDR, CEC as well as 3D. The audio transmission in LPCM 7.1, DTS, Dolby Digital, DTS-HD Master Audio and Dolby TrueHD as well as the connection of an external AV receiver (ARC), also leaves nothing to be desired.
