Creator-First Networking

The ProArt Switch PQG-U1080 features eight 2.5G RJ45 ports and two 10G SFP+ ports to deliver high-speed wired expansion for creator studios, enabling stable connections, large file transfers, backup workflows and multi-device collaboration for network-attached storage (NAS), workstations, and other devices. Plug-and-play setup and versatile mounting options make it easy to integrate into clean, modern workspaces.
