With 4 USB 3.2 gen1 ports, transfer data at up to 5Gb/s. Charge and power external devices, no need for an extra USB hub.

Unreal Switching Speed

Exclusive ATEN technology brings astoundingly fast switching speed. Switching between two systems takes three seconds,* making your workflow more efficient than ever before.

Always Correct Resolutions and Display Configurations

ATEN's patented Video DynaSync™ ensures correct resolutions and display configurations when switching ports under all operating systems, ensuring smooth desktop operation.

Exceptional AV Performance in Vivid 4K@60Hz

US3311 empowers your desktop operations with visual enhancement thanks to 4K DCI compliance. It supports up to 3840x2160@60Hz and also works with 21:9 Ultrawide and 32:9 super Ultrawide monitors for graphics-intensive work.

Work While Charging with 100W Power Delivery

The USB-C KVM dock switch also works as a charging station to keep your USB-C devices and USB peripherals powered on.
