The Kanguru SS3 is a superSpeed USB3.0 flash drive that includes a convenient, built-in, physical write protect switch, providing more speed, protection and convenience than any other USB flash drive. With super-fast read speeds at a maximum of 400MB per second, and write speeds of up to 300MB per second, the Kanguru SS3 is by far is one of the fastest flash drives in the industry, as well as the largest flash drive with 512GB capacity! Protect your data and safely connect to any computer with the built-in write-protect switch set to “read-only”, and you can be assured of viewing your files in a protected mode, and they cannot be overwritten. This feature also prevents viruses and malware from having any chance of infecting the drive. Flip it back and you can make adjustments to your files as you would with any other flash drive.
