The latest Wi-Fi technology eliminates annoying lag, endless loading, and dead spots. Enjoy the future of faster network loads and more connections.

Fill Every Inch of Your Home with Wi-Fi 6

The 505X wirelessly connects to your router, boosting your Wi-Fi 6 signal throughout your home so you can binge watch your favorite show anywhere.

Dual Band, More Benefits

Adaptive Path Selection

Keeps your network running at top-speed by automatically choosing the fastest connection path to the router.

High Speed Mode

Use both Wi-Fi bands to enjoy super-fast connections —ideal for HD streaming and gaming.

Built-In Access Point Mode

RE505X is more than just a wireless range extender.
Simply plug an Ethernet cable into its port to easily turn that wired connection into a high-speed dual band wireless signal.

TP-Link OneMesh

OneMesh is a simple way to form a Mesh network with a single Wi-Fi name for seamless whole-home coverage. Just connect a OneMesh range extender to a OneMesh router. No more searching around for a stable connection.

Smart Roaming
Uninterrupted streaming when moving around your home

One Wi-Fi Name
No more switching Wi-Fi network names

Easy Creation

OneMesh Router and OneMesh Range Extenders pair instantly

Unified Management

Manage the entire network all from the TP-Link Tether app

Enjoy an AX Mesh Network with Your Existing Router

Want a Mesh network? Hesitating whether you should replace your current router with a new Mesh set? Update your existing TP-Link router’s firmware to the OneMeshTM version—no need to replace anything. Connect the RE505X to the router. Enjoy your Mesh network.

Control at Your Fingertips

Set up and manage your Wi-Fi through the TP-Link Tether app from your smartphone (Android, iOS), including TP-Link routers and range extenders.
