Your Smartest Work Companion

As one of the first AI PCs* to launch on the familiar Windows 11 Pro with Next-Generation AMD Ryzen™ AI 7 PRO 360, the Lenovo ThinkPad T14s Gen 6 laptop empowers you to work smarter. A neural processing unit (NPU) capable of 50 trillion operations per second (TOPS) offloads heavy tasks to an AI engine, boosting performance, system's efficiency and your productivity.

*Free updates to Copilot+ PC experiences, when available. Timing varies by device and region. See aka.ms/copilotpluspcs

Let Your Creative Vision Go Limitless

Experience the next level of visual excellence with smooth, speedy rendering of every pixel. Crafted to handle demanding content creation workloads with ease, the next-gen AMD Radeon™ graphics empower professionals to unleash creativity without compromise.

Redefined Efficiency — Work, Create & Connect Longer

Cease your search for wall outlets! Thanks to the built-in power-efficient Next-Generation AMD Ryzen™ AI 7 PRO 360 processors, you'll enjoy groundbreaking performance at lower power consumption — so you can keep working without interruption. Multitask like a pro and enjoy exceptional extended battery life that keeps up with you on your busiest days.

Always On, Always Ahead

The ThinkPad T14s Gen 6 powerhouse takes connectivity to new heights. Experience blazing fast internet speeds with WiFi 7 and Bluetooth® device pairing that keeps you in sync — whether you're collaborating with co-workers or streaming media. The best part? You'll appreciate world-class security, stability, and reliability when you need it most!

Protected Data, Preserved Privacy

The T14s Gen 6 laptop is equipped with ThinkShield, our advanced security suite that safeguards your data and your device with encryption. From the fingerprint reader integrated with the power button to zero-touch login with the infrared camera, you can enjoy seamless, secure access. And, there’s a webcam privacy shutter for added protection.

Make a Positive Impact — Think Green, ThinkPad

This Windows 11 PC isn’t just about innovation — it’s also about sustaining resources. 95% post-consumer content (PCC) recycled plastic is used in cable holders while the adapter and speaker enclosure contains 90% PCC recycled plastic. Even its packaging is plastic-free and is Forest Stewardship Council (FSC)-certified. (Details in Tech Specs)

Sustainability

Credibility & Collaboration

Our goal is to provide smarter technology that builds a brighter, more sustainable future for our customers, communities, and the planet. That's why we pursue industry leading labels and certifications that demonstrate our commitment to sustainability in product design. Together, we can build a smarter future for all.
