Work comfortably for hours with Acer B6 Series monitors. Acer ComfyView™ technology reduces glare, for greater eye comfort. In-Plane-Switching1 technology lets you see perfect images from wide viewing angles, for even more clarity and comfort.

Brilliant colors

These monitors deliver 100% sRGB coverage1, for perfectly recreated colors. Some models feature 6-axis color adjustment, which lets you fine-tune the colors for amazing color accuracy.

Flexible design

Find a working angle that's perfect for you with the Acer ErgoStand1, a stand that lets you easily adjust the screen’s height, as well as letting you tilt and swivel it easily. Another great feature of the ErgoStand is that it allows you to effortlessly rotate the screen to portrait mode.
