

BakkerElkhuizen ErgoSlider+ wrist rest

Model: BNEESLWRB

Manufacturer: BAKKER ELKUIZEN

EAN: 8719274672920

Product Code: 1229293

R2,166

An exchangeable wrist rest that allows you to customise your ErgoSlider Plus central mouse to fit your specific needs and preferences.

The exchangeable ErgoSlider Plus Wrist Rest Black is a useful feature for anyone who spends a lot of time with the ErgoSlider Plus central mouse and is ready to improve the overall experience. It replaces the original wrist rest and increases comfort by enlarging the contact surface for your wrists. Detaching the wrist rest makes it easier to clean for better hygiene.

Extend the lifespan

Over time, the wrist rest on your central mouse will wear out or might become damaged. The ability to replace it with the ErgoSlider Plus Wrist Rest Black separately from the rest of the device can help extend the overall lifespan of your ErgoSlider Plus central mouse.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. Easy to be installed

Simply remove the original wrist rest of your ErgoSlider Plus central mouse by gently pulling it off the device. Then place the connection points over the corresponding holes and press the ErgoSlider Plus Wrist Rest Black onto your ErgoSlider Plus central mouse until you hear it click.
