

Seagate Constellation ST4000NM0024 internal hard drive 4 TB 7200 RPM 128 MB 3.5" Serial ATA III

Model: ST4000NM0024

Manufacturer: SEAGATE

Product Code: 12413

R1,707 ~~R1,840~~

The Seagate® Enterprise Capacity 3.5 HDD delivers high capacity without sacrificing performance for reliable access to bulk storage of unstructured data.

- Provides a 25% nearline performance boost over competitive offerings to help meet your Service Level Agreements
- Helps to lower your TCO by providing the highest capacity drive to meet your expansive data growth
- Built on a field-proven, eighth-generation platform and optimized for 24x7 storage environments

- Provides secure bulk data storage with Self-Encrypting Drive (SED) technology you can trust

6TB and Built for Speed

Supporting the industry's best response times for a 6TB nearline drive, the Enterprise Capacity 3.5 HDD enables faster data transfers by utilizing the latest interfaces on a trusted platform. And for reliable access to bulk storage, the Enterprise Capacity 3.5 HDD provides excellent IOPS/TB along with the reliability, availability and serviceability that your customers expect.

Supersize Your Unstructured Data Storage

The Enterprise Capacity 3.5 HDD is the perfect foundation for building maximum density server and storage solutions. This family of 3.5-inch capacity-optimized hard drives in 6, 5, 4 and 2TB capacities supports the highest density storage for a great return-on-investment.

Reliable, Robust Bulk Data Storage for a 24×7 World

High capacity storage for multi-drive chassis requires predictable and reliable performance. The Enterprise Capacity 3.5 HDD is built to support enterprise-class nearline workloads of up to 550TB per year, which is up to 10× the rated workload of desktop HDDs. Clearly, the Enterprise Capacity 3.5 HDD can help to ensure that you meet your rigorous bulk storage SLAs. Choose from 12Gb/s SAS or SATA 6Gb/s interfaces for easy integration into existing platforms.

Protect Data with SED Options

Enterprise Capacity 3.5 HDD protects data where it lives—on the drive. Choose from government-grade SED FIPS 140-2 option* or SED models with Seagate Instant Secure Erase technology for easy and cost effective drive disposal.

What's In the Hard Drive?

- World's fastest 6TB nearline hard drives
- 10× the workload rating of desktop drives
- High reliability with an MTBF of 1.4M hours on all drives
- 12Gb/s SAS and SATA 6Gb/s interfaces for easy integration
