

Seagate IronWolf ST6000VN001 internal hard drive 6 TB 5400 RPM 256 MB 3.5" Serial ATA III

Model: ST6000VN001

Manufacturer: SEAGATE

Product Code: 12463

R3,628 ~~R4,185~~

YOUR NAS DESERVES A PACK LEADER

IronWolf is Way Ahead of the Pack

Seagate understands your unique data storage challenges, and crafted the IronWolf® and IronWolf Pro 16 TB network attached storage (NAS) hard drives to help you achieve your goals.

We continue to push capacity boundaries way ahead of our competition.

Manage Drive Health

IronWolf Health Management (IHM) improves overall system reliability by displaying actionable prevention, intervention, and recovery options. When IronWolf or IronWolf Pro hard drives are integrated into compatible NAS systems, the overall system reliability increases due to constant monitoring and user alerts.

FILE SHARING AND RV SENSORS

Conventional Magnetic Recording Maintains Performance

Multiple users can confidently upload and download data on a NAS system populated with IronWolf hard drives.

IronWolf hard drives 4 TB and higher are equipped with RV sensors to maintain performance in multi-bay NAS enclosures. IronWolf Pro drives come standard with RV sensors built in for higher bay NAS. Built with conventional magnetic recording (CMR), IronWolf and IronWolf Pro drives deliver the consistent performance you need.

FOR MULTI-BAY NAS ENVIRONMENTS

Support Your Business

IronWolf can handle the vibrations and high workload rates of a high-data network within a multi-bay NAS environment.

Please note: IronWolf drives are tested and approved by QNAP

IRONWOLF HAS YOUR BACK

Be Creative. Keep Growing.

IronWolf and IronWolf Pro help keep you on schedule with 24×7 remote access, backup, and file sharing.

Please note: For high workloads, collaborative environments use IronWolf Pro drives in Synology NAS
