R14,990 ~~R16,140~~

- **Key Features:** Maximize Productivity A thinner, lighter way to do business: Starting at 2.35lb (1.06kg)¹ and at just 0.63 inches (15.9 mm) thin, the new Vostro 13 5301 is one of the thinnest and lightest laptops within the Vostro portfolio – ideal for those who carry their business with them everywhere they go. USB Type-C: The USB Type-C™ port supports data, DisplayPort, and Power Delivery, enabling you to transfer data, send an image to a monitor, and charge the device, all with one cable. Ready and waiting: A lid-open sensor will turn on your laptop, even when completely off, so you can access what you need as soon as you need it. ExpressCharge™: Take your battery charge level from 0% up to 80% within an hour² so you're not tied down to an outlet while working on the go. Modern design made for business Built to last: For workers constantly on the move, the Vostro 13 5301 offers a durable design that passes 12 different military-grade tests to ensure your laptop withstands real-world conditions³ as you work on the go. Narrow borders: A 3-sided narrow border maximizes the surface area of the 13.3-inch screen, while helping minimize distractions. Dazzling display: A brilliant FHD panel (up to 300 nits) offers more brightness and vivid color for an enhanced front-of-screen experience. Intelligent thermals: The Vostro 13 5301 can automatically detect where it's placed. This allows it to intelligently adapt its thermal profiles to stay cool if it's in your lap or hands, and work at full power when stationary on a desk. Powerful processing: Tackle your workday with the power of up to 11th Gen Intel® Core™ processors. Redesigned hinge: The new drop hinge lifts the laptop slightly off the table when open past a 135-degree angle, allowing for improved air circulation and a more comfortable typing experience. Superior security Prioritize privacy: The new privacy shutter ensures no one can see you while the HD webcam isn't in use. TPM 2.0: The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up, and protects your data against external software attacks. Simple & secure: The optional fingerprint reader with Windows Hello allows you to easily and securely log in with just one touch. Advanced video conferencing Crystal-clear camera: The high-quality HD camera lets you converse face to face

in vivid detail, and at just 2.7mm, its size allows for borders to be more narrow. Precision-tuned Audio: Never miss a word with the Waves MaxxAudio® Pro suite of precision-tuned, studio-quality technologies including powerful noise reduction, reliable echo cancellation, clarifying EQ, and smoothing dynamics. Clearer quality: SmartByte software ensures video-conferencing applications receive network bandwidth priority over other applications, so every business call features outstanding clarity.
