Samsung continues to lead the industry with the broadest portfolio of memory products and

display technology. Its display panels, DRAM, flash, mobile and graphics memory are found in many computers – from ultrabooks to powerful servers – and in a wide range of handheld devices such as smartphones and tablets. Samsung is also a leader in TV displays. In addition, Samsung provides the industry's widest line of storage products from the consumer to enterprise levels. These include optical disc drives as well as flash storage, such as Solid State Drives, and a range of embedded flash storage products.
