of size and performance to fuel even more intensive creative projects. Create more of what you love with a PC powered by 12th Gen Intel® Core™ processors. Edit videos and export them faster. Use AI to help you design and broadcast at higher quality with AI effects. From ray tracing to AI-powered video editing, optional NVIDIA® GeForce RTX™ 3050 Ti GPUs deliver the performance to boost workflows and accelerate your creative genius. Dell Performance helps unlock access to four modes—quiet, performance, cool and optimized. Each mode tailors fan speeds and battery life, with performance mode unlocking the full power of your PC. You'll experience incredibly long battery life—up to 13 hours* on a FHD+ model with 86WHr battery when streaming your favorite shows, up to 10 hours* of streaming on an OLED model with 86WHr battery or up to 9 hours* of streaming on a 4K+ model with 86Whr battery. Created for creators XPS configurations badged with Creator Edition* have been carefully selected for those wishing to cultivate their content creation skills—be it photography, graphic design, music production or beyond. Every NVIDIA® GPU is backed by exclusive and free Studio Drivers that bring out the best in your creative apps. The drivers are built in partnership with app developers like Adobe and Autodesk to continually improve your experience. Proven. Reliable. And extensively tested to let you embark on your most ambitious projects. A full SD card slot makes the XPS 15 a mecca for photography by enabling rapid import of RAW images. Masterful Craftsmanship Using authentic premium materials, the XPS 15 is precision cut to achieve a flawless finish look. All in a durable, lightweight design where the finest details are considered and the essentials are elevated. Precision manufacturing 100% of the enclosure is sculpted by a CNC machining process. A high precision, machine-milled aluminum chassis creates an elegant design that's stronger and firmer than magnesium or plastic. Diamond cut sidewalls provide a scratch-resistant surface. Cool and light The black carbon fiber palm rest, inspired by the aerospace industry, allow for maximum strength and minimal weight. Elevated essentials The XPS 15 features a massive display, a big, comfortable touchpad and an edge-to-edge backlit keyboard with large key caps for maximum productivity. Incredible sound for mixing or listening Expand audio into an immersive 3D soundscape with our quad speaker design and Waves Nx® 3D Audio for Speakers. The XPS 15 is the first-ever laptop featuring Waves Nx® 3D audio for speakers tuned by multi-Grammy Award® winning producer, Jack Joseph Puig.* Fast and secure log-on With a variety of technologies, the new XPS 15 enables more productivity, faster. Log-on instantly with built-in lid sensor that powers up the laptop in milliseconds, plus log-on securely with facial recognition or fingerprint reader and Windows Hello. Eco-wise Our black packaging trays consist of ocean-bound plastics. 25% percent of the
