Seagate FireCuda ZA2000GM10001 internal solid state drive 2 TB 2.5" Serial ATA III 3D TLC

Model: ZA2000GM10001

Manufacturer: SEAGATE

Product Code: 13210

R4,410 ~~R5,045~~

Upgrade Your Gaming Experience

FireCuda SSD solutions are designed and built specifically with the needs of professional-level gamers in mind.
Go further with a gaming SSD built for industry-leading speed, sustained abuse, lowest latency and superior gaming.

Level Up to Impressive

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Standard drives won’t help you level up because they aren’t made for the sustained abuse of top-tier gaming.
FireCuda 510 SSD delivers durable speed for the long haul, and provides fast PC gaming storage speeds so you spend less time loading levels and maps, fewer seconds respawning, and reduced stuttering in open-world gaming.

Load Fast, Play Hard

Designed for speed, endurance, and capacity, FireCuda 120 can take everything PC games throw at it.
With up to 4 TB of space, maxed out SATA 6 Gb/s speeds, and the durability of up to 5,600 TB TBW (Total Bytes Written), this SSD plugs in and loads up quickly. Give your battlestation a boost, the FireCuda 120 is ready to play.

Ready to Play

Super SATA Speeds

Unleash SATA 6 Gb/s speeds of 560/540 MB/s (sequential read/write) — up to 30× faster than hard drives.

High Capacity

Build up your library with multiple capacities up to 4 TB.

Long-Term Reliability

Built for 1.8M hours MTBF and up to 5,600 TB TBW (Total Bytes Written), this SSD keeps playing.

A Winning Duo

Our FireCuda 520 and FireCuda 510 solid-state drives are built to provide you with more cores, more cache, more tech, and more I/O. Both PC gaming drives are out-of-the-box compatible with the latest generation of powerful AMD Ryzen processors.

Pair an AMD Ryzen 5000 Desktop Processor with the new FireCuda 520 to unlock true PCIe Gen4 speeds for the ultimate PC gaming builds.

Speed Up Your Creativity

The speed and durability of these solid-state drives make them a great solution for creative professionals who need files processed faster.
Sequential read/write speeds can handle multiple video streams writing to the drives, and high IOPS ensure consistently smooth streaming.

Benefit From SeaTools

SeaTools™ SSD is our free software that tests and analyses our drives. It is completely data safe and easily installs on your system.
Features include:
- Drive health monitoring
- Drive performance monitoring
- Firmware and software updates

We’ve Got Your Back

When the unexpected happens — like water damage or natural disaster — Rescue Services help you defend against data loss and retrieval costs so you can rest easier.
