drive has your back.

Incredible speed

Delivers 7200-RPM spin speed along with sustained data rates up to 250MB/s and burst data rates of 6Gb/s.

Energy efficient

This drive is one of the lowest-power 3.5-inch drives on the market.

Ultimate protection. Bundled with Seagate

Rescue Data Recovery Services, this

drive is protected for 2 years against any mechanical, accidental, or natural disaster — with a 90% success rate for in-house recovery.

History of reliability

For 20+ years, the Barracuda family has had a reputation for complete reliability.

Optimised for creative pros

Designed and tuned for creative applications, these drives feature higher random performance and drive reliability than typical PC compute drives.
