Multi-speed support

Compatible with various network environments through Multi-Gigabit support for 10/5/2.5/1 GbE.

Low-noise operation

Fanless design ensures stable performance with reduced noise and maintenance, offering a quiet, reliable experience for long-term use.

Add 10GbE high-speed network connectivity

Connect your devices to a 10GbE network with the QNA-UC10G1T and significantly boost your transmission performance and team productivity.

Stylish metal finish and portable

Perfectly fits in with all your tech gear

Build a high-speed network environment with a 10GbE switch

In multi-user, multi-device environments, connect your computer to a QNAP 10GbE switch using the QNA-UC10G1T network adapter to create a high-bandwidth, high-speed collaborative network across multiple connected devices.

Easy setup, instant connection

Simply connect a QNA-UC10G1T to your Mac® or Windows® computer using the included USB 4 cable, and connect the adapter to a 10GbE switch, NAS, or other 10GbE device using an RJ45 Cat 5e, Cat 6, Cat 6a (or above) cable, or an SFP+ DAC cable.
