PNY 2 Slot NVLink Bridge for RTX Ampere

NVIDIA NVLink is the world's first ultra-high-speed GPU interconnect offering a significantly faster (2x PCIe Gen 4 bi-directional) alternative for multi-GPU systems. Connecting two compatible NVIDIA RTX Professional Graphics boards or compatible NVIDIA Data Center GPUs with NVLink enables memory pooling and performance scaling to meet the demands of your largest rendering, visual computing, CAD, CAE, Healthcare, M&E, scientific and technical computing, simulation, AI, data science, or HPC workloads.

NVLink enables many exciting new features such as memory pooling and performance scaling that dramatically accelerates workloads found in Machine Learning, Data Science, VFX, CAD and CAE,
