The ZOTAC GAMING Twin Edge graphics card features an NVIDIA GeForce RTX 5050, providing gaming performance with 8 GB of GDDR6 SDRAM. Supporting four monitors and a V-Sync rate of 165 Hz, this card ensures a smooth and immersive experience. Its dual fan design and 2-slot fan cooler maintain efficient operation, while features such as NVIDIA DLSS 4 and real-time ray tracing enhance visual fidelity.

Connectivity options include three DisplayPorts and one HDMI, supporting Display Stream Compression for compatibility. With a power consumption of 130 W, this card balances performance and energy efficiency. The ZOTAC GAMING Twin Edge is a choice for gamers seeking performance and a broad feature set.
