The ZOTAC GAMING graphics card is designed to deliver performance in gaming. Featuring the NVIDIA GeForce RTX 5050 GPU, this card excels in rendering 4K resolutions up to 7680 x 4320 with a V-Sync rate of 120 Hz, ensuring smooth visuals in intense gaming scenarios. Equipped with 8 GB of GDDR6 SDRAM and a 128-bit bus width, this graphics adapter provides quick data access for immersive gaming sessions. Connectivity options include two DisplayPorts and an HDMI output, alongside compatibility with HDCP 2.3 and UHBR20, ensuring optimized video quality. The card is also NVIDIA G-Sync ready, which enhances synchronization between the graphics card and monitor to eliminate stuttering and tearing. Additional features such as multi-frame generation, ray tracing cores, and Tensor cores elevate gaming graphics, making this graphics card suitable for both gamers and content creators.
