

ASUS RT-N12E wireless router Fast Ethernet Black, Metallic

Model: 90-IG29002M03-3PA0-

Manufacturer: ASUS

EAN: 4719543397275

Product Code: 196459

R950

ASUS RT-N12E supports 802.11 b/g/n and has 300 Mbps high speed. With CD free easy installation and stable data transmission, RT-N12E is the basic solution for wireless internet setup. It also contains Green WLAN technology so it consumes less power during stand by mode.

Plug-n-Surf Installation

3-steps is all you need to set up the router. You don't need a CD for installation.

Save the planet and your pocket

Compared with generic Wireless-N routers, ASUS ECO-WiFi CPU reduces 72%* of energy consumption and utility cost.

Extended Network Coverage

The RT-N12E features a 5dBi high-gain antenna that boosts the wireless signal, thereby extending coverage range.

Network Map-Manual Free Management

Straight-forward design to help users to:

- Display the whole network status and clearly provide WAN/LAN status
- Securely connect to your wireless network and prevent intruders from using it
- Manage your network in minutes
- Try our EZ UI software

WPS Function& WPA/WPA2 Encryption

WEP encryption is not enough for Wi-Fi connection nowadays, and intruders may access your Internet flagrantly. Using WPS function and WPA/WPA2 encryption can firmly secure your home networks and protect the private resources.
