

ASUS ROG Rapture GT- AXE16000 wireless router 10 Gigabit Ethernet Tri- band (2.4 GHz / 5 GHz / 6 GHz) Black

Model: GT-AXE16000

Manufacturer: ASUS

EAN: 4711081263838

Product Code: 200059

R13,187

GT-AXE16000 quad-band WiFi 6E (802.11ax) gaming router, new 6 GHz band, dual 10G ports, 2.5G WAN port, dual WAN, AiMesh support, VPN Fusion, Triple-level game acceleration and free network security

- World's first quad-band WiFi 6E gaming router – Ultrafast WiFi 6E (802.11ax) quad-band WiFi router boosts speeds up to 16000 Mbps

- New 6 GHz frequency band – Wider channels and higher capacity delivers higher performance, lower latency, and less interference.
- Expanded coverage – The exclusive ASUS RangeBoost Plus improves signal range and overall coverage.
- Flexible AiMesh configuration – Dedicated 5 GHz or 6 GHz backhaul using ASUS AiMesh routers for more flexible device options
- Dual 10G ports – Enjoy up to 10X-faster data-transfer speeds for bandwidth-demanding tasks with two 10 Gbps WAN/LAN ports.
- 2.5G WAN port – 2.5 Gbps port prioritizes all network traffic, and unlocks the full potential of WiFi 6.
- Triple-level game acceleration - Accelerate game traffic every step of the way — from device to game server

The world's first quad-band WiFi 6E gaming router

The trailblazing ROG Rapture GT-AXE16000 is the world's very first quad-band WiFi 6E gaming router, delivering incredible speeds of up to 16000 Mbps. We've unlocked the full potential of the four frequency bands — 2.4 GHz, two 5 GHz bands, and 6 GHz — with 160 MHz channels in the 5 GHz and 6 GHz bands to bring you the fastest speeds possible.

Experience ultimate connectivity

With four frequency bands available, you can dedicate each band to different devices for faster and smoother WiFi connections. It also gives you even more flexible options for connecting ASUS AiMesh-compatible routers as mesh nodes if you want to create a whole-home mesh system.

WiFi 6E - 6 GHz band

WiFi 6E gives you up to seven* additional high-speed 160 MHz channels, for multi-gigabit speeds with stable and consistent connections. It dramatically increases network capacity while reducing bandwidth congestion, delivering higher performance for every WiFi 6E device.

Built for the ultimate speed

ROG Rapture GT-AXE16000 is powered by the latest 2.0 GHz quad-core 64-bit CPU and WiFi chipsets, giving it the performance to handle even the most demanding gaming networks. Maximum network throughput is increased by up to 18%* for lightning-fast responsiveness, accelerated data transfers and an optimized gaming experience.

Built for the ultimate speed

ROG Rapture GT-AXE16000 is powered by the latest 2.0 GHz quad-core 64-bit CPU and WiFi chipsets, giving it the performance to handle even the most demanding gaming networks. Maximum network throughput is increased by up to 18%* for lightning-fast responsiveness, accelerated data transfers and an optimized gaming experience.

Built for the ultimate coverage

ASUS RangeBoost Plus is the latest, most powerful version of our renowned RangeBoost technology, which can improve coverage and WiFi performance significantly compared to other models without RangeBoost. By using next-gen flagship Broadcom WiFi chipsets with the exclusive ASUS RF technology, RangeBoost Plus leverages multiple upgraded ASUS features that improve WiFi signal range and overall coverage by up to 38%*.

To infinity and beyond

For the ultimate style, ROG Rapture GT-AXE16000 has an infinity mirror on the top of the case that adds a unique touch to the multiple Aura RGB lighting effects. GT-AXE16000 shows your true style while gaming!

Game without boundaries

VPN Fusion lets you run both a VPN and an ordinary internet connection — simultaneously! So even if other network users need to use a VPN, you can still enjoy maximum gaming speeds.
