140 meters of Gigabit transmission adding 40% longer distance compared to a standard switch, simplifies wiring for larger premises.

Saves Power

Reduce power consumption when Ethernet ports are idle, saving the electricity expenses on networking facilities.

Wall Mounting

Provides two mounting holes on the bottom of the casing, catering to wall-mounting placement scenarios.

A Plug and Play Network Hub

Connect Office Computers to Wired Network
Boost Home Devices with Stable Ethernet

Robust Metal. Compact Size.
Metal casing delivers simplicity and protection for the network hub, compact enough to fit in most home network distribution boxes.
