Upgrade Internet, Upgrade Home Entertainment

AC1200 Wireless VDSL/ADSL Modem Router Archer VR300

Upgrade AC Wi-Fi to Enjoy Wireless Entertainment

As a powerful DSL modem router, the Archer VR300 makes full use of its Wi-Fi abilities by providing combined dual band Wi-Fi speeds of up to 1200Mbps. 300Mbps on 2.4GHz is perfect for everyday surfing and emailing, while 867Mbps on 5GHz provides lag-free HD streaming and gaming.

Superfast VDSL Broadband

The latest VDSL2 technology allows the Archer VR300 to deliver impressive VDSL broadband speeds of up to 100Mbps, which is almost five times faster than ADSL2+. The Archer VR300 serves as a DSL

modem and wireless router, combining two devices in one. The integrated DSL port supports all standard DSL connections, including VDSL2, ADSL2+, ADSL2, and ADSL.

External Antennas Greatly Expand Wireless Coverage

Four external antennas with advanced connection technology allow you to maintain impressive speeds, even over greater distances. This means that you can enjoy incredible wireless coverage and reliability in any part of your large home or office.

Easy Setup and Management

Set up the Archer VR300 in minutes thanks to its intuitive web interface and the powerful Tether app. Manage network settings, including Parental Controls and Access Control, from any Android or iOS device. Tether also provides Automatic Firmware Updates to always give your network the latest performance and security.

Remote Control

With TP-Link Tether App and DDNS, you can control your home network wherever you are.

Safe, Family-Friendly Surfing

Parental Controls manage when and how connected devices can access the internet. Guest Network keep your main network secure while creating a separate network for guests and visitors.

6kV Lightning Protection

6KV Lightning Protection provides shields against electrical damage caused by thunderstorms so that you can enjoy your life even in bad weather.
