

TP-Link AC1300 wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: EC225-G5

Manufacturer: TP-LINK

EAN: 4897098684535

Product Code: 200213

R1,352

Dual Band WiFi up to 1.3 Gbps

EC225-G5 allows you to connect more devices and stream simultaneously with its dual 2.4 GHz and 5 GHz bands. The 5 GHz band delivers speeds up to 867 Mbps, great for bandwidth-intensive applications like video streaming and online gaming. The 2.4 GHz band provides reliable connections for sending emails, web browsing, and other simple tasks.

Connect More Devices Simultaneously

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Thanks to MU-MIMO technology, EC225-G5 lets your devices achieve optimal performance by making communication more efficient. With two simultaneous data streams, every connected device can achieve faster speeds than with standard AC routers.

Extensive WiFi Coverage

Beamforming technology and four high-gain antennas combine to adapt WiFi coverage to perfectly fit your home and concentrate signal strength towards every device.

Create Smart Mesh WiFi with Great Flexibility

Create a unified mesh WiFi network with several EC225-G5s working together or with other EasyMesh-compatible devices for seamless whole home coverage.

Robust Network Protection

WPA3 Security

Higher password safety and enhanced protection against brute-force attacks

Parental Controls

Block inappropriate content and restrict time spent online

Guest Network

Create separate networks for your visitors or different applications, while keeping your main network secure

Gigabit Broadband Internet Access

The Gigabit Ethernet ports allow you to take full advantage of your broadband speed up to 1 Gbps. Plug your PCs, smart TVs, and game consoles into one of the three Gigabit Ethernet LAN ports for fast and reliable wired connections.

Easy Setup and Use

You can set up your device in minutes, whether you prefer the powerful Aginet app or the intuitive web interface. The Aginet app allows you to manage your network from a smartphone or tablet.

Remote Management for ISPs

ISPs can remotely configure and manage devices via their ACS (Auto-Configuration Server) system or the Aginet ACS. High-level operations are also supported thanks to compatibility with TR-181, TR-111, and TR-143 protocols.

Aginet Solution: End-to-End Management System for ISPs

The Aginet Solution offers ISPs powerful and flexible platforms to manage multiple devices for connected homes, such as dynamic service provisioning, remote firmware upgrading, and troubleshooting.
