SUPERIOR CHERRY MX GAMING KEY-SWITCH

Cherry RED key provides superior key response and an optimized actuation force. Reduced key actuation distance of 2mm improves keyboard response time while remaining whisper silent during operation.

ALL KEY PROGRAMMABLE WITH ON-BOARD MEMORY

It is easy to set any key to any macro or combination you want. And with on board memory, you can set almost unlimited profiles.

FULL-RANGE ANTI-GHOSTING CAPABILITY

Utilizing the revolutionary Anti-Ghosting Matrix key-switch design, AORUS K1 provides Anti-Ghosting across all areas of the keyboard. (N-Key Rollover) Dominate the competition with the advantage and versatility of being able to input multiple keystrokes at once.

ON-THE-FLY MULTIMEDIA AND BACKLIGHT CONTROL

The convenient function hotkeys offer instant media control and allow you to adjust the keyboard backlighting scheme with ease.

CABLE MANAGEMENT

AORUS K1 offers you 3 different ways to route your braided cable.
