R2,800

The PowerColor x Ducky One 2 SF Series keyboard offers a mechanical typing experience with its Kailh Box Brown key switches, combining tactile feedback with quiet operation. This wired keyboard features a USB-C interface, ensuring stable connectivity and easy setup. Users can enjoy an exquisite typing experience enhanced by adjustable height, RGB backlighting with 16.8 million colors for personalization, and n-key rollover for advanced gaming performance. Additionally, the detachable cable offers portability and convenience for users on-the-go. The polybutylene terephthalate (PBT) keycaps ensure durability and a premium feel, making this keyboard suitable for both gaming and professional use.
