R4,052

The CORSAIR K65 PLUS Wireless keyboard provides versatile compatibility, functioning seamlessly with PCs, Macs, and gaming consoles. This compact 75% keyboard combines mechanical technology and a wireless connectivity option for a reliable typing experience. It features programmable keys, enabling customization for quick access to volume control, backlight adjustment, and zoom functionalities, making it suitable for both gaming and productive use. Users can enjoy the flexibility of a detachable cable and adjustable height, ensuring comfort and performance in any setup. Designed with anti-ghosting technology, the K65 PLUS allows for multiple key presses to register simultaneously without interference. With its sleek design and efficient layout, this keyboard is suitable for gamers and anyone seeking an efficient typing tool. The combination of wired and wireless capabilities provides users with choices for connectivity, ensuring a smooth experience whether on a desk or in a mobile environment.
