TP-Link Archer AX6000 wireless router Gigabit Ethernet Dual-band (2.4 GHz / 5 GHz) Black

Model: ARCHER AX6000

Manufacturer: TP-LINK

EAN: 6935364099763

Product Code: 202857

R5,657

What is 802.11ax Wi-Fi

Fast. High Efficiency.

Gaming, 4K/8K streaming, smart home devices, and AR/VR all compete for network resources, creating lag and crowding your network. To solve this problem,

802.11ax5 (also known as Wi-Fi 6), a next-gen high-efficiency Wi-Fi standard, was created. Now, you can simultaneously connect more devices1 and enjoy the optimum speed for each of them.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Next-Gen Wi-Fi — 802.11ax

The Archer AX6000 is TP-Link’s first router with next-generation 802.11ax Wi-Fi technology. Take your Wi-Fi to the next level while being backward compatible with 802.11a/b/g/n/ac Wi-Fi standards.

4x Larger Capacity

OFDMA greatly increases the number of connected devices by assigning channels to more devices

3x Faster Speed

1024 QAM and Long OFDM Symbol boost overall speeds up to an incredible 6000 Mbps

Boosted Coverage

BSS Color technology ensures smooth and stable connections by eliminating signal interference, while beamforming and Rangeboost deliver stronger and far-reaching network.

Blazing Fast Speed

New technologies that come with 802.11ax, such as 1024QAM and Long OFDM Symbol, allow the router to provide industry-leading speeds of up to 1148 Mbps on a 2.4GHz band and 4804 Mbps on a 5GHz band. With the maximum bandwidth increased to 160MHz4, you enjoy blazing-fast speeds without any lag.

Connect Numerous Devices

Non-Stop Entertainment on All Your Devices

With OFDMA and MU-MIMO technology, Archer AX6000 provides up to 4× higher capacity and throughput compared to standard AC routers in dense usage environments, greatly increasing the number of connected devices.

Far-Reaching Wi-Fi Coverage

8 high-gain external antennas deliver a strong Wi-Fi signal throughout your home. BSS Color technology ensure smooth and stable connections by eliminate signal interference probably from your neighbors, while beamforming and Rangeboost deliver stronger and far-reaching network.

Lightning-Fast Wired Connections

The Archer AX6000 provides a 2.5Gbps WAN port6 to make fully use of the over 1Gbps internet access, boost the whole internet throughput. one Type C and one Type A USB 3.0 ports and eight Gigabit Ethernet ports also help to transfer data at blistering speeds for peak performance.

Smarter. Faster. Safer.

Top-Notch Processing Architecture

An extremely powerful 1.8GHz 64-bit quad-core processor with two distinct co-processors and 8Gb of RAM powers through multiple complex tasks and demanding applications with ease. Its processing power allows the router to support multiple high-demand applications at the same time.

HomeCare

A free lifetime subscription of TP-Link HomeCare™ ensures every device on your network remains protected with a threat database that is continually updated. Use the powerful parental controls to limit time spent online and block inappropriate content according to unique profiles created for each family member.

Setup Just Got a Lot Easier

To set up the Archer AX6000 via Bluetooth, simply download the Tether app,
follow the on-screen instructions, and get your network up and running in minutes.

Ready for Today and Tomorrow's Smart Home

With the growing number of devices in today's home, everyone deserves a smarter and easier way to bring all your products together. Utilize Amazon Alexa to control everything via voice commands to enjoy truly intelligent life.
