More connected devices shall bring more fun rather than dragging the performance. Revolutionary OFDMA is introduced to improve average throughput by 4× and cut the latency. Take advantage of incredibly low latency to demolish your enemies, with your team crew together.

CRUSH THE LAG WIN THE GAME

GAME ACCELERATOR automatically detects and optimizes gaming streams, to ensure your gaming stays immersive, and keep your network as fast as your reaction speed.

KNOW YOUR NETWORK

GAME STATISTICS shows the real-time latency, game duration and system utilization at a glance in a refreshed dashboard with fine-tuned UI elements, puts total control at your fingertips.

KEEP ALL ELEMENTS SECURITY

GAME PROTECTOR keeps your accounts and system safe. This enhanced HomeCare™ security system is powered by Trend Micro™, delivering comprehensive antivirus protection that ensures your total security while gaming online.

GAME ON THE FAST LANE

GAMING BAND—a dedicated gaming band for your game rigs, makes your online games and your families' Netflix 4K streaming no more competitor.

DFS expands available channel automatically, get on the more vacant lane and boost the game.

BATTLE-TESTED HARDWARE

Equipped with 1.8 GHz Quad-Core CPU and 1 GB of RAM to handle huge throughput and crush the lag. Link Aggregation and USB 3.0 type C and type A ports ensure virtually any device can connect to your home network.
