

CISCO Meraki MG41-E Cellular Gateway External Antennas

Model: MG41E-HW

Manufacturer: CISCO

EAN: 810979017851

Product Code: 202893

R33,136

MG41 can instantly provision primary cellular connectivity across thousands of sites at once without waiting on broadband or any change in infrastructure, enabling faster business expansion. Deliver primary gigabit connectivity with MG41 or pair with Meraki MX and SD-WAN to allow for the optimal bandwidth management needed for today's cloud-first organizations. With gigabit-level backup cellular connectivity, businesses can rely on MG41 for a consistent experience 24/7/365 to increase business uptime and network resilience. MG41 allows businesses to confidently deploy primary gigabit cellular at sites where there's no broadband coverage, the carrier coverage is initially unknown, or there's a varying level of availability and network reliability from multiple regional carriers. The dual SIM gives the flexibility to switch to a better performing carrier network through auto-SIM failover or switch to the other carrier when either of the SIM reaches the data cap.

Product Description: Cisco Meraki MG41E - gateway | Device Type: Gateway | Form Factor: External | Data Link Protocol: Ethernet, Fast Ethernet, Gigabit Ethernet | Mobile Broadband Access: Yes | Mobile
