
TP-Link Omada 3-in-1 Gigabit VPN Router

Model: ER7212PC

Manufacturer: TP-LINK

EAN: 4897098688717

Product Code: 202914

R7,046

A Future-Proof, Versatile, and Compact Router with PoE+ Ports and Controller Capability

Omada 3-in-1 Gigabit VPN Router

3-in-1 Router, More Than A Router

The 3-in-1 ER7212PC presents a one-stop solution for home and small business networking.

With a single compact box, users can replace their router, hardware controller, and PoE+ switch setup. There is no need to manually configure various network devices one by one, you can perform unified deployment through ER7212PC. All you need is one device.

Up to Four WAN Gigabit Ports to Optimize Bandwidth Usage

Equipped with multiple ports, ER7212PC satisfies various internet access requirements through one device. The multi-WAN Load Balancing function distributes data streams according to the bandwidth

proportion of every WAN port to raise the utilization rate of multi-line broadband.

Easy Installation, Quiet Heat Dissipation

A clean, well-organized, and quiet network environment is at your fingertips.

- The compact and minimalist design makes it suitable for your configuration in various spaces, whether it's the corner of office desks or the ceiling of a store.
- Fanless design offers noiseless heat dissipation to your shops or offices.

Easy Centralized Management

With built-in centralized management capability, the ER7212PC enables you to manage and update devices in bulk, with no need for individual and complex setups. Additionally, check the Omada app or web browser, ER7212PC allows you to remotely control connected devices, monitor the network, and view the network maintenance in real-time.

High-Security and High-Performance VPN

ER7212PC supports pass-through traffic and multiple VPN protocols, including OpenVPN, IPSec, PPTP, and L2TP in Client/Server mode. One-click auto IPSec VPN simplifies VPN configuration and facilitates network management and deployment.

Robust Security Features

- Powerful Firewall
Advanced firewall policies
protect your network and data.

- Convenient VLAN Support
Create virtual network segments for
enhanced security and simplified
network management.

- DoS Defense
Automatically detects and blocks
