Super VDSL for Faster Speeds

The Deco X73-DSL features Super VDSL (VDSL2 Profile 35b), the latest generation of DSL technology. Downstream is increased by up to 350 Mbps, 3.5x faster than its VDSL2 predecessor. The integrated DSL port also supports all standard DSL connections.

More Connectivity with Fully Gigabit & USB 3.0

Deco X73-DSL brings more connectivity to access applications through 4× Gigabit Ethernet WAN/LAN ports. Both Ethernet ports support to be used as backup broadband access points, such as an ordinary wireless router. Also, equipped with USB 3.0 port, you can enjoy local storage, connect to a media server, and remote access via FTP server faster than ever.

Seamless Roaming with One Wi-Fi Name

TP-Link Mesh means Deco units work together to form one unified network. Your phone or tablet automatically connects to the fastest Deco as you move through your home, creating a truly seamless Wi-Fi experience.

Let the Experts Secure Your Home

Customize your home network with enhanced security using TP-Link HomeShield's kit of built-in features. Whether you're identifying network security holes, limiting the time your children spend online, or blocking websites, HomeShield gives you the tools you need to fully manage your network.

Setup Just Got a Lot Easier

Unbox Deco, install the app, and then simply follow the on-screen directions. The Deco will take care of the rest and get your network up and running in minutes.

WiFi Made Easy

Easy Management
