

HPE 10504 Switch Chassis

Model: JC613A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 886111414512

Product Code: 202954

R185,080

The HPE FlexNetwork 10500 Switch Series sets a new benchmark for performance, reliability, and scalability with next-generation Clos architecture. Designed for enterprise campus core networks, the 10500 Switch Series enables a cloud-connected and rich-media-capable infrastructure. The switch series provides high port density, 3-microsecond latency, and very low energy consumption. With Hewlett Packard Enterprise (HPE) Intelligent Resilient Framework (IRF) technology, the scalability and resiliency of the 10500 Switch Series can be extended and virtualized across up to 4 chassis with a single management interface - enabling flatter, more agile networks. This switch series, along with the entire HPE FlexNetwork architecture, can be seamlessly managed through the HPE Intelligent Management Center (IMC), which provides a single-pane-of-glass management view of the infrastructure.

Product Description: HPE FlexNetwork 10504 Switch Chassis - switch - rack-mountable | Device Type: Switch | Enclosure Type: Rack-mountable 8U | Subtype: 100 Gigabit Ethernet | Features: Fan tray | Dimensions (WxDxH): 44 cm x 66 cm x 35.3 cm | Weight: 38.7 kg | Manufacturer Warranty: 1-year warranty
