Business Driver. Space Saver.

NUC 13 Pro Mini PCs, Kits, and Boards offer the combination of size, performance, and reliability you need to drive modern business.

It all starts with 13th Gen Intel Core processors that deliver outsized performance in a 4x4 form factor, with up to 14 processor cores (6P+8E) and up to 64GB dual-channel DDR4 memory. Select SKUs also come with Intel vPro® Enterprise, which provides comprehensive security, enterprise-grade stability, and hardware-based remote management.

The NUC Pro Software Suite (NPSS) helps to ensure digital signage applications keep running during any unexpected system failures. Businesses also benefit from advanced features including power control, hardware alarm clock, hardware KVM, boot redirection, beyond firewall support, cloud-based manageability, remote PC remedy, and unattended system control.

To provide an eco-friendly foundation for businesses, NUC 13 Pro Mini PCs and Kits are upgradable, repairable, and reusable. Every system is qualified for 24x7 operation.
