HP ZTurbo Drive 1TB SED TLC SSD Module M.2 PCI Express

Model: 6YT79AA

Manufacturer: HP INC.

EAN: 193905082261

Product Code: 20879

R13,069

The HP Z Turbo Drive features a PCIe connected SSD, which enables performance levels greater than 1 Gbps. This performance is available at a price that is at parity with today's comparable SATA SSDs. This will enable the highest price/performance ratio for client grade SSDs.

The HP Z Turbo Drive will be supported on desktop platforms of HP Z workstations. It will support storage configurations as a boot device and as a data device. The performance gains are significant when connecting to the PCIe bus. The sequential read and write performance is roughly twice as fast as today's SATA SSD products.

The HP Z Turbo Drive is supported on all current desktop workstation platforms. It is also supported by current offering of operating systems, and does not require a separate driver. It does require a BIOS update for any system shipped prior to the Z Turbo Drive launch. A maximum of 2 Z Turbo Drives can be shipped with platforms from the factory, and it can be configured with additional hard drives, both SATA and SAS.

Product Description: HP Z Turbo Drive - SSD - 1 TB | Type: Solid state drive - internal | Capacity: 1 TB | Hardware Encryption: Yes | NAND Flash Memory Type: Triple-level cell (TLC)
