

SILICON POWER SSD US75 2TB M.2 PCIe NVMe Gen4x4 NVMe 1.4 7000/6500MB/s

Model: SP02KGBP44US7505

Manufacturer: SILICON POWER COMPUTER &
COMMUNICAT

EAN: 4713436153818

Product Code: 21222

R9,146

The SILICON POWER US75 solid state drive is a solution for users seeking to enhance their computing experience with faster data access, improved system responsiveness, and reliable performance. With its PCI Express 4.0 x4 (NVMe) interface, this internal hard drive achieves an internal data rate of up to 7000 MBps, making it suitable for intensive applications and multitasking. Incorporating 3D NAND technology, the US75 not only offers increased storage capacity but also ensures efficiency and durability, extending the lifespan of the drive. It is designed to withstand a wide range of operating temperatures, from 0 °C to 70 °C, and comes with a shock acceleration operating tolerance of 1500 g, highlighting its robustness. Furthermore, with an impressive MTBF of 1,500,000 hours, users can trust in the US75 for long-term reliability. Whether for personal use or

professional applications, the SILICON POWER US75 solid state drive is a choice for upgrading your
