The WD Red Plus 12 TB internal hard drive is designed for NAS systems, providing reliability and performance for 24x7 continuous operation. With a capacity of 12 TB, this hard drive supports heavy workloads up to 180 TB per year, ensuring ample space for storing important data. The spindle speed of 7200 rpm combined with a data transfer rate of 600 MBps allows for quick access to files, making it suitable for personal and professional use.

This hard drive features Native Command Queuing (NCQ) and advanced formatting technology, enhancing the efficiency of data handling. It incorporates NASware technology, which optimizes the drive's performance in NAS environments. The drive operates quietly with a sound emission level of 39 dBA. Designed to withstand various environmental conditions, the WD Red Plus operates in temperatures ranging from 0°C to 65°C.
