The Kingston NV3 is a solid state drive (SSD) designed for performance and reliability. With a capacity of 1 TB, it provides space for storing large files, applications, and games. Utilizing 3D NAND technology and NVM Express (NVMe), this drive offers rapid data transfer speeds. Users can enjoy an internal data rate of up to 6000 MBps, enhancing system responsiveness and reducing load times for applications. Built for durability, the NV3 features an SSD endurance of 320 TB and is tested for shock and vibration tolerance, ensuring data integrity even in challenging environments.

Operating efficiently in a wide range of temperatures, the Kingston NV3 can function between 0°C to 70°C, making it suitable for diverse computing environments. The compact M.2 2230 form factor allows for easy installation in compatible devices. With a mean time before failure (MTBF) of 2,000,000 hours, users can trust in the longevity and stability of this internal hard drive, ideal for both casual users and professionals demanding speed and reliability.
