R1,048

On top of standard iRMC features, the iRMC Advanced Pack additionally provides the functions Advanced Video Redirection (AVR) and Remote Storage

Advanced Video Redirection (AVR)

- System-independent graphics and text console redirection, including the keyboard and mouse
- Remote access to permit boot monitoring, BIOS administration and interaction with the operating system

Remote Storage

Remote Storage makes available to the managed server a virtual drive which is located elsewhere in the network.
The virtual drives provided by Remote Storage are as easy to use as local drives and offer the
