cameras. It is part of the EcoStruxure IT DCIM suite of applications, which enables your business to manage their data centers across multiple domains. With EcoStruxure IT Data Center Expert, you can monitor your company-wide multi-vendor physical infrastructure: power, cooling, security, and environment from anywhere on the network. The DCE software collects, organizes, and distributes critical alerts, surveillance video, and key information, providing a unified view of complex physical infrastructure environments from anywhere on the network.
