highest level of service available in the industry today.

Installation verification

Once the equipment is assembled, an APC Certified Field Service Engineer will verify all connections within the system have been made according to factory specification, and that it is functioning correctly in all modes of operation, ensuring optimal performance and extending the life of the product.

Labor and travel expenses included

Travel and labor expenses are included in most service contracts. Please see the statement of work for the service specifics.

Convenience

Experienced Certified Field Service Engineer

Our factory trained Field Service Engineers are rigorously trained and tested on how to efficiently service our products, as well as on safety practices and electrical codes, offering our customers the highest level of service available in the industry today.

Multiple levels of service

With the option of packages or individual service components, our services are structured to allow you to pick and choose what you would like APC to do for you.

7x24 Upgrade option

If you are like most businesses, you want your systems up and running during your busiest hours. In order to accommodate your busy schedule, APC offers an option to schedule services off hours. We will work with you to find a time when servicing your system is least likely to impact your productivity, saving your business time and money.
