

PATRIOT VIPER PV573 2TB M.2 2280 PCIE Gen5 x4 SSD

Model: PV573P2TBM28H

Manufacturer: PATRIOT MEMORY

EAN: 4711378429305

Product Code: 22043

R6,290

The Patriot Viper Gaming PV573 is an internal solid state drive designed to meet the demands of gaming and intensive computing tasks. With an internal data rate of 14,000 MBps, it ensures rapid data access and efficient load times. The M.2 2280 form factor allows for seamless integration into various systems, while the PCI Express 5.0 interface enhances performance capabilities. Built with advanced 232-layer TLC NAND technology and featuring an integrated heatsink, this SSD maintains optimal temperatures for improved reliability during intense usage.

Equipped with features such as a cooling fan, thermal throttling, and LDPC error correction, the Viper Gaming PV573 offers durability and data integrity. It also supports over-provisioning for improved performance management. With 4KB random read speeds reaching 20,000,000 IOPS and write speeds of 1,650,000 IOPS, this solid state drive is ideal for gamers and content creators who need dependable storage that keeps up with their pace.
