Basic design

- The HP 500B is designed to be easy to setup and easy to use. Get to work right out of the box with the functionality you need for small business computing at its basics and operate effectively from day one.

Essential technology

- Proven Intel® processors, Windows® 7 Operating System, Intel chipset and Graphics Media Accelerator, a choice of optical drives, hard drives up to 640GB, and up to 4 GB DDR3 SDRAM memory.

Need options?

- PCIe slots to help you get the job done with options like discrete graphics cards.

Built to last

- With more than 113,000 hours of testing, you get a reliable and durable desktop that can go the distance.

Available services

- Care Pack Services are optional extended service contracts which go beyond your standard warranties and help maximize the initial return on investment all while reducing loss of productivity.
