Professional's dream. Generate intensive animation, multi-dimensional engineering plans, and complex designs with this powerful HP EliteBook 8760w Mobile Workstation. This mobile workstation boasts expanded memory capacity and high-performance graphics. Check out the masterpieces created on HP mobile workstations.

Equipped to get the job done

- Optimized for Genuine Windows® 7 Professional, the 43,9 cm (17.3") diagonal HD+2, FHD2 or DreamColor display with processor capabilities and wireless functionality culminate to meet your business needs.

NEW chiseled design exudes power

- No need to worry about bumps, drops or scuffs. The purposeful design of the HP EliteBooks translates into true business ruggedness.
- The gunmetal casing and military-grade testing drop, vibration, dust, humidity, altitude and high temperature helps ensure your notebook can survive rough travels and harsh work locations.

Workstation-caliber graphics

- Maximize on-screen performance with your choice of ATI or NVIDIA’s ISV-certified workstation graphics. See this video about how one architect used his HP Mobile Workstation.
- Supporting up to 5 displays simultaneously, AMD Eyefinity Technology delivers innovative, graphics display capabilities enabling users to group multiple displays together to form a large viewing surface or use them independently to see different data on various screens simultaneously.
- HP Performance Advisor delivers a simple, effective, software wizard that takes you from initial configuration and customization through optimizing your system for each new application and driver you install.

Consistent, accurate color

- HP DreamColor technology makes it easy to work in many different color spaces and ensure consistent color appearance from concept to design to production.

Improve productivity and performance

- Run more tasks, processes and applications simultaneously with a mobile workstation that brings together and optimizes multi-core processors, up to four SODIMMS and professional graphics.
- SRS Premium Sound delivers an audio experience for users listening to media rich content or presenting multimedia heavy presentations and for digital content creators listening to audio or surround sound the way it was meant to be heard.
