which, together offer incredible set of features allowing you to meet, connect and collaborate seamlessly and intelligently.

Deliver HD Voice with Yealink Acoustic Shield

With Yealink Acoustic Shield technology, DECT wireless headset WH66 could well filter out background noise by 2x microphones while you are on a call,which provides a HD voice quality for your listeners, and ensures distraction-free conversation.

Noise is a Productivity Killer

With a 2x Microphones design, it guarantees your customer a better communication experience. Hear what the DECT wireless headset WH66 can provide.

Stay Focus and Enhance Productivity

The Yealink UC Workstation is more than a single base, it eases the management of business communication demands and other USB devices. It also delivers great flexibility with a set of integrated features to facilitate your daily routine. It is professional, collaborative, and available.

Ensure Your Communication with Comfort

To meet the various preferences of users, Yealink created the WH66 DECT wireless headset with a lightweight design, soft and breathable ear cushions, and a 330° adjustable microphone to ensure all-day comfort.

Wireless Freedom & All Day Power

No matter when and where your conversation begins, the office headsets can always catch up your steps. With up to 120m wireless range and 8 hours talk time, it is suitable for users' daily communication needs. In addition, the product supports high density installation in the open office, which allows up to 200 users (Europe) enjoy the wireless communication at the same time.

One For All Devices Management
