R894

Do more with the Tracer Smart RF keyboard

Tracer Smart RF is an ergonomic wireless keyboard that is perfect for both home entertainment as well as long hours of office work.

Quick access to main functions
Six multimedia keys and a built-in touchpad allow you to do much more in less time. The Smart RF keyboard improves the comfort of using TVs, video game consoles, notebooks and classic PCs. Thanks to the multimedia keys, it provides instant access to music, e-mail and many other functions.

High-quality wireless connection in the 2.4 GHz band
Write, work and play, wherever you like. The 2.4 GHz wireless connection eliminates delays, communication drops and distortions within an operation distance of up to 10 meters.

Design that pleases the eye

Elegant and slim design makes the device blend in with any interior. Membrane mechanism and low key profile ensure comfortable use even when working with more content. The low profile of the keys makes writing not only comfortable, but also very quiet. This is a perfect proposition for home-grown writers and bloggers.

A touchpad instead of a mouse

The touch panel with two large buttons ensures comfort and precision of operation, successfully replacing a mouse. Controlling a Smart TV, a video game console and other multimedia devices has never been so convenient.

Simple plug and play installation

Configuration takes only a moment. Just connect the wireless receiver to the USB port on a video game console or a TV and the device will be immediately detected and configured. The Tracer Smart RF keyboard is compatible with the following Windows operating systems: 95/98/ME/XP/Vista/7/8/10.

- Convenient connection to a PC and easy installation
- Elegant design
- Quick access to main functions
- Wireless operation with a range of up to 10 m
- Built-in large touchpad
- Lifespan up to 20 million clicks
- Powered by two AA batteries
