With up to 32GB DDR4 memory, you'll enjoy seamless multitasking, switching between tasks quickly and easily. Having dual storage drives mean you get the best of both worlds—the high capacity of HDD, plus the fast access of SSD. Monitor, keyboard, and mouse not included.

Security for data & device

Prevent data theft by restricting port access with BIOS-based Smart USB Protection, while the integrated firmware, Trusted Platform Module (TPM) 2.0, encrypts your data and your passwords. Protect your devices physically with the Kensington lock slot and smart cable clip, and prevent unauthorized access to internal components via the padlock loop.

Sustainability certifications

The V35s meets multiple global sustainability standards, including Energy Star® 8.0*, EPEAT® Silver, and RoHS. Rest assured, this desktop is eco-friendly in both production and use. *Certified on select configurations.
