also configurable and expandable, with low energy consumption and a host of other features that will make it a favorite in the office.

Balancing footprint & performance

A 1L enterprise-level powerhouse with mainstream performance and productivity, the ThinkCentre M70q Gen 2 (Intel) strikes a perfect balance between performance and footprint. Its powerful 11th Gen Intel® Core™ processor and fast DDR4 memory are ready to start crossing items off your to-do list, with configurable storage options as well. Bundle it with a Tiny-in-One modular display to create your own all-in-one.

Big protection for this Tiny

Lenovo’s ThinkShield security solutions protect your device and data via hardware and software working together. A TPM 2.0 chip encrypts your passwords, while BIOS-based Smart USB Protection prevents unauthorized users from plugging in and accessing your files. The device is also equipped with a Kensington lock slot, enabling you to physically secure it to your desk or other space. Monitor, keyboard, and mouse sold separately.

Built & tested for reliability

ThinkCentre PCs are tested against 10 military-grade requirements and more than 200 quality checks to ensure they run in extreme conditions. From the Arctic wilderness to desert dust storms, from temperature extremes to vibrations and shocks, you can trust your ThinkCentre M70q Gen 2 Tiny (Intel) to handle whatever the job throws at it.

Convenient & configurable

The M70q Gen 2 offers remote power-up and supports up to three independent monitors. Six USB ports—one with fast-charging capability–and a host of other ports and options allow plenty of other peripherals. Its slots and add-ons mean you can configure it the way you want, while tool-less access makes it easy to expand and grow with your business.

Fits anywhere—and looks good there

Not much bigger than a paperback book, the M70q Gen 2 is easy to deploy in any location, and its optional ThinkCentre Vertical Stand provides extra stability wherever that may be. Multiple mounting kits are available, or simply leave it on a shelf or a desk, horizontal or vertical. Its modernized, Raven Black chassis will look great wherever you put it.

Sustainable design & usage

The M70q Gen 2 Tiny (Intel) meets multiple global sustainability standards, including Energy Star® 8.0, EPEAT® Gold, RoHS, and more. It’s certified for low noise emission by TÜV Rheinland, and its high-efficiency adapter makes for low power consumption. It’s also equipped with a dust shield, for added environmental protection and longer life.
Monitor sold separately.
Specifications may vary depending upon region / model.
