data easily, improving productivity and the bottom line.

Steadfast security

The Thinkcentre M75s Gen 2 small form factor desktop’s discrete Trusted Platform Module (dTPM) chip encrypts critical information and enables hardware authentication. BIOS-based Smart USB Protection prevents unauthorized access via peripheral. And AMD GuardMI technology enables power-on-to-power-off data protection with a co-processor inside the AMD Ryzen™ PRO CPU.

Convenience guaranteed

The ThinkCentre M75s Gen 2 SFF offers plenty of convenient features to help users be more comfortable and productive. A rapid-charging USB port enables fast data transmission and device charging, even when the PC is in sleep mode. Turn on the desktop with a simple key stroke. Connect multiple peripherals to a variety of ports, for seamless multitasking. Easily manage updates, diagnostics, and security from a remote location.

Energy-efficient and reliable

The M75s Gen 2 has a minimal footprint on the environment as well as on your desk. It meets global sustainability standards for Energy Star® 8.0, EPEAT® Silver, and TCO 8.0. And it’s designed and rigorously tested for durability and reliability.
