efficient.

Designed for customization

Configure it your way, because the M90q Gen 3 desktop PC is designed to be customized for optimum workflows. This tiny premium powerhouse easily connects with industry-specific equipment and legacy peripherals, through an abundance of enhanced IO ports.

Smarter features. Smoother workdays.
It’s the small things that help you get the most out of the workday. M90q Gen 3 is loaded with practical features like Smart Power On, which allows you to turn on the desktop with a simple keyboard shortcut. Additionally, multiple mounting options allow this tiny desktop to fit—or hide—almost anywhere.

Complete security

ThinkShield is the most comprehensive, end-to-end security solution on the market; combining industry leading hardware, software, services, and processes to protect your data. Built on the Intel vPro® Enterprise platform, it features hardware-based, below-the-OS advanced threat detection.

Specifications may vary depending upon region / model.
